## 1. Contents of the M2 manual

This manual contains instructions on the Finnish Red Cross cost claim system, M2, for FRC delegates. Instructions are provided on login to M2, creating a cost and travel claim, including adding attachments to the claim. Further information about posting, sending for approval, advance payments and currency rates are also included in the manual.

### 1.1. Logging in and selecting language

URL: <https://www.saasm2.com/blue/Login>

Username: Firstname.Surname

Default password: m2passwordFRC21

Business ID: FINRC

Password must be changed by first sign-in.

To change the default language, click the flag on right lower corner.

### 1.2. Types of claims in M2

#### Cost claim

Delegate will prepare a **cost claim including all mission expenses**, when **no** per diem is claimed for the mission. Through cost claim, the FRC will reimburse mission related costs. In case there are both delegate costs, such as travel and medical costs, and costs for the operation to be reimbursed through M2, two separate cost claims should be prepared – one for the delegate costs and another for the operation costs, due to different budget holders and approval processes.

#### Travel claim

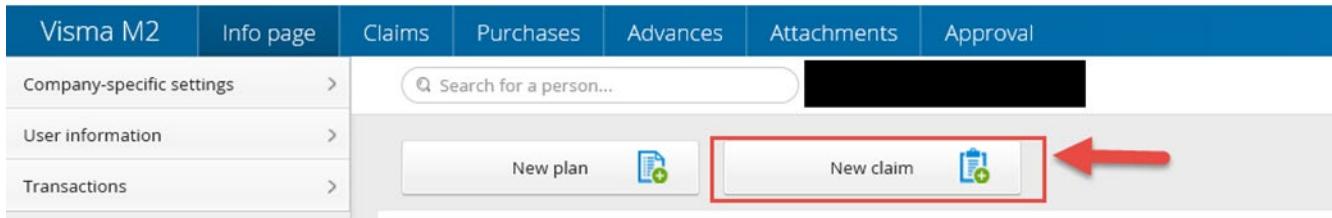

Travel claim is to collect **per diem** for the mission. For short missions, where only one travel claim is prepared for the full mission, **all delegate costs** can be included in the travel claim.

## 2. Cost claim in M2

When there are costs to claim without per diem (= päiväraha), a cost claim should be prepared as follows.

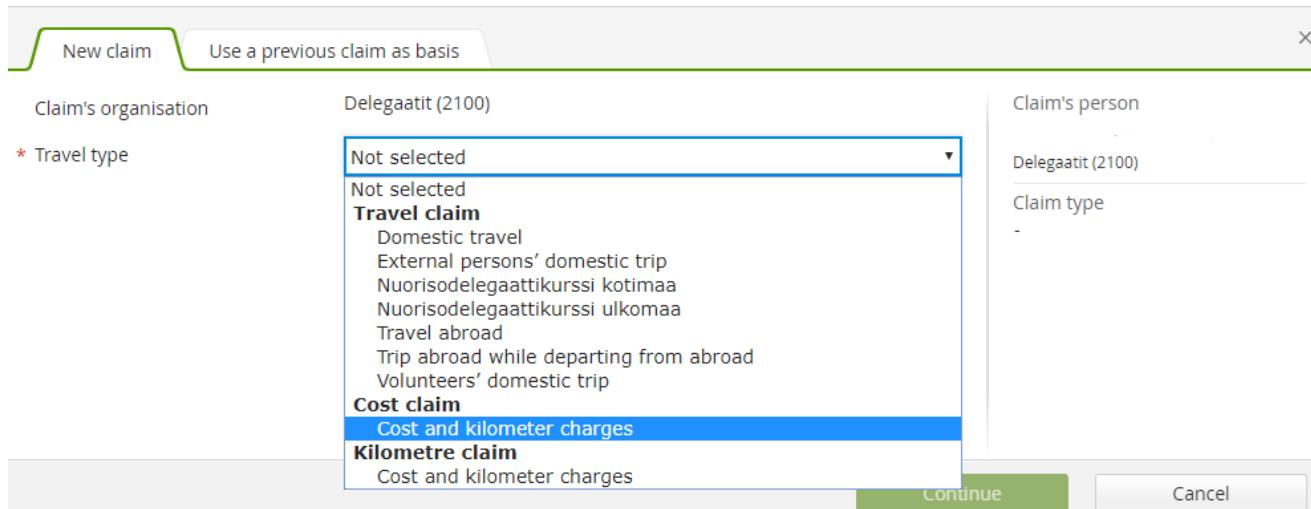

### 2.1 New Cost Claim

1. Choose “New Claim”.

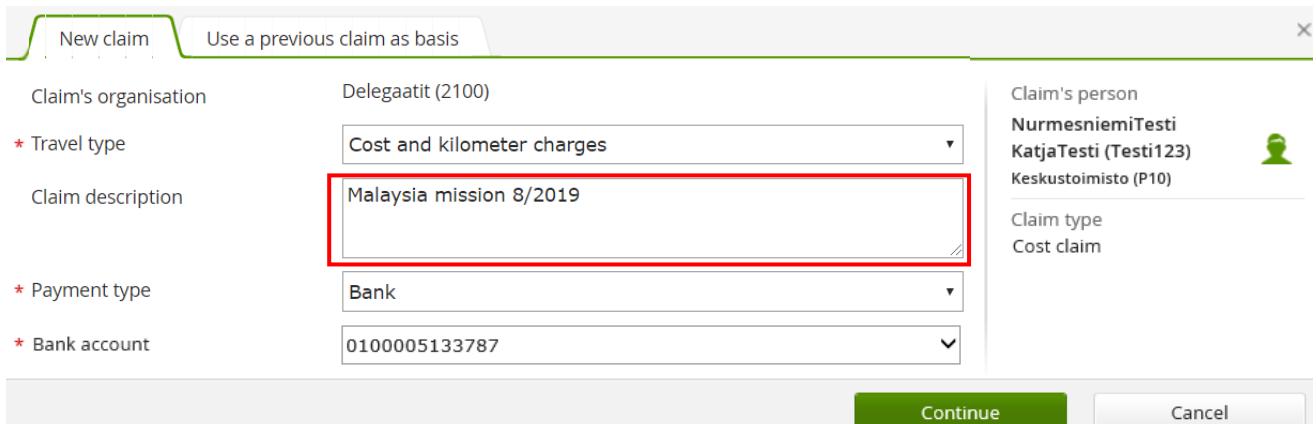

The screenshot shows the Visma M2 navigation bar with several tabs: 'Visma M2', 'Info page', 'Claims', 'Purchases', 'Advances', 'Attachments', and 'Approval'. Below the tabs, there are three main sections: 'Company-specific settings', 'User information', and 'Transactions'. In the 'Transactions' section, there are two buttons: 'New plan' and 'New claim'. The 'New claim' button is highlighted with a red box and a red arrow pointing to it.

2. Choose “Cost and kilometer charges” from the drop down menu.

The screenshot shows the 'New claim' dialog box. The 'Travel type' dropdown menu is open, showing a list of options under 'Travel claim' and 'Cost claim'. The 'Cost and kilometer charges' option is highlighted with a blue selection bar. The dialog box also includes fields for 'Claim's organisation' (Delegaatit (2100)), 'Claim's person' (Delegaatit (2100)), and 'Claim type' (Cost claim). At the bottom are 'Continue' and 'Cancel' buttons.

3. Fill in Claim description “What and when” in English. Choose “Continue”.

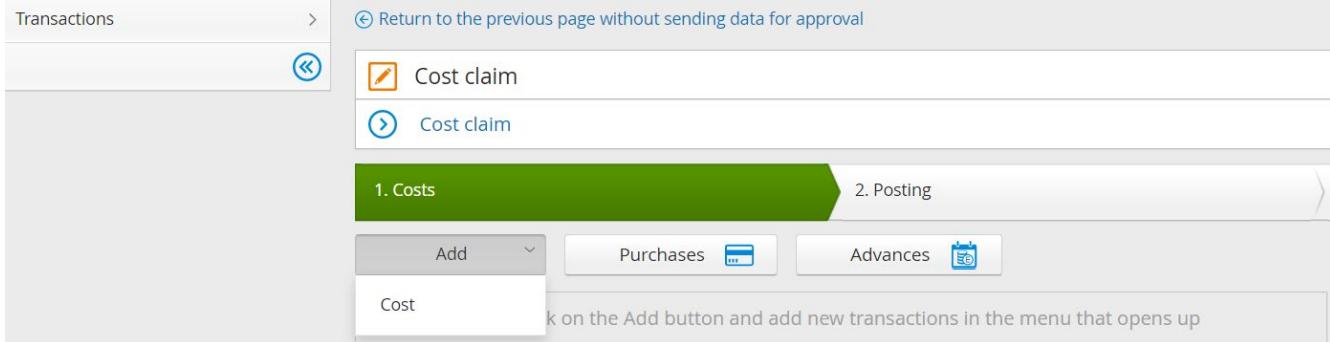

The screenshot shows the 'New claim' dialog box with the 'Claim description' field filled with 'Malaysia mission 8/2019'. Other fields include 'Payment type' (Bank) and 'Bank account' (0100005133787). The 'Continue' and 'Cancel' buttons are at the bottom. The 'Travel type' field is also visible, showing 'Cost and kilometer charges'.

## 2.2 Adding costs

**Each cost is a separate entry** and must be added to the cost claim as a separate purchase activity.

1. Add cost by choosing “Add” and thereafter “Cost” from the drop-down menu.

Transactions > [Return to the previous page without sending data for approval](#)

**Cost claim**

**Cost claim**

**1. Costs** **2. Posting**

Add Purchases Advances

Cost

Click on the Add button and add new transactions in the menu that opens up

2. Fill in details in **English**.

Add cost

* Date	21.08.2019 
* Cost type	Travel tickets (train, taxi, bus, flight) 
* Means of payment	Cash
* Currency amount	20,00 EUR EU euro
* Currency rate	1
Sum	<b>20,00 EUR</b>
* Description	Bus ticket 21.8.2019_travel to mission briefing
* Type of cost	<input checked="" type="radio"/> Domestic cost <input type="radio"/> Foreign cost

Add another **Save** **Cancel**

**Date: the date of the purchase**

**Cost type: type of the cost**

**Means of payment: cash** (this is always cash even when paying with credit card)

**Currency amount: amount in the original currency** (if not in EUR see 2.3 *Currency rates*)

**Currency rate: rate of the currency**

**Description: the cost specific description which contains the reason for cost and date of the event**

(example: Bus ticket 21.8.2019\_travel to mission briefing) > **this text is posted to accounting**

**Type of Cost: domestic cost / foreign cost**

**Add another: click here if you have another cost to add**

**Select “Save”.**

## 2.3 Currency rates

Costs are entered to the M2 program in the original transaction currency or in euros. Use either the exchange rate of the system or the realized actual exchange rate.

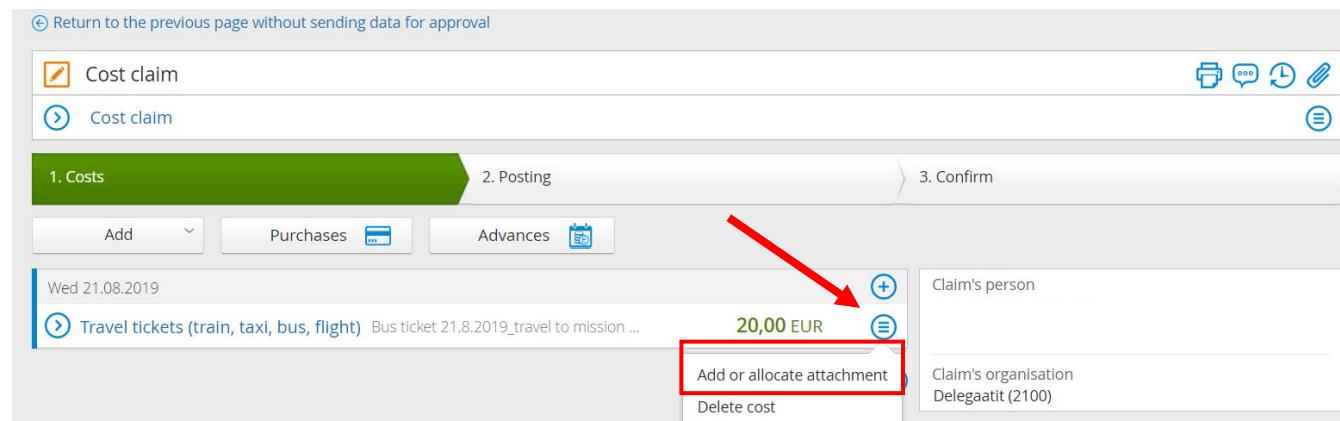

- 1) The M2 system calculates automatically euros based on the exchange rate in the program. The exchange rates quoted by the ECB (European central bank) are automatically updated on a daily basis, if needed, see Appendix 1 and the other exchange rates are updated at the HQ approximately quarterly, please see Appendix 2, list of currencies, most currencies of the program countries being manually updated.
- 2) If you enter the exchange rate manually, you will need to include a currency exchange/withdrawal documentation. If the tolerance of the exchange rate is insufficient, you will receive an error message, please contact a HQ finance officer. Other special arrangements, such as self-certification of the exchange of foreign currency, are always agreed separately; regarding these please contact the RFAD of the region or directly the region's Finance Officer. If M2 does not have the required currency, please report it via the RFAD or directly to the HQs finance officer in order to add a missing currency.
- 3) If you have paid with your own debit/credit card, the easiest way to verify the euro sum of the payment is to attach a bank receipt where both local currency and the euro sum are indicated. Hence, you may enter the cost to M2 in euros and no calculations are needed.

## 2.4 Adding attachments

Each cost is a separate entry in accounting and must include all the following information either in the receipt or other attachments (in English): Who paid, to whom, for what, where, when, why, which project, how much and currency. **Each cost line must include an attachment.**

**NOTE:** If flight travel is included, boarding passes are required as attachments.

1. Documents are uploaded to the program by:
  - > Selecting the three lines on the cost line.
  - > Choose “Add or allocate attachment”.

Return to the previous page without sending data for approval

### 3. Posting information

The system automatically uses your default delegate project posting information. Always check that the Posting-tab includes district, cost center, project and activity code. This posting information applies to all cost lines, if not modified by the author of the claim.

1. If you want to modify your **Default posting** information, which is the posting for the whole claim, click on the Default posting –line.
2. If you are editing the **posting information of one specific cost line**, select “+ (plus sign)” from the right end of the cost line.

## 4. Sending for approval

After checking the invoice summary, send it for approval as follows.

Delegate project costs > HR Assistant

Training project costs > Training Assistant

Program project costs > Finance Assistant or Assistant assigned to the project

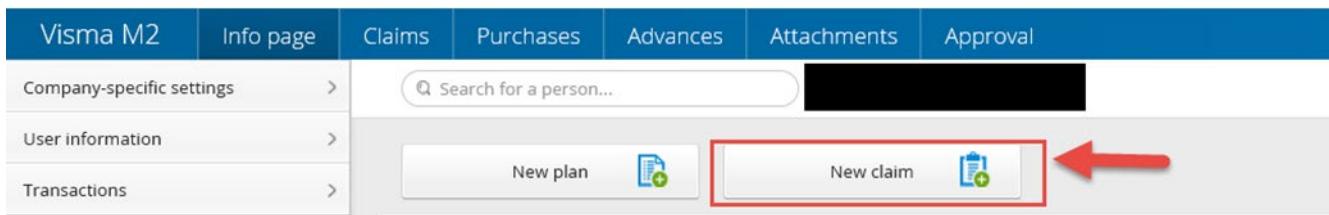

The screenshot shows a software interface for managing cost claims. At the top, there are two buttons: 'Cost claim' (orange) and 'Cost claim' (blue). Below these are three sections: '1. Costs', '2. Posting', and '3. Confirm'. The '3. Confirm' section is highlighted with a red box. It contains fields for 'Approver' (set to 'Pasma Pia (piatarkastaja)'), 'Message' (empty), and a 'Send for approval' button, which is also highlighted with a red box. To the right of the 'Approver' field, there is a 'Claim's person' section with the name 'NurmensieniTesti KatjaTesti (Testi123)' and a green user icon. Below that is a 'Claim's organisation' section with 'Keskustoimisto (P10)'. At the bottom of the '3. Confirm' section is a 'Send for approval' button.

## 5. Travel claim (=per diem) in M2

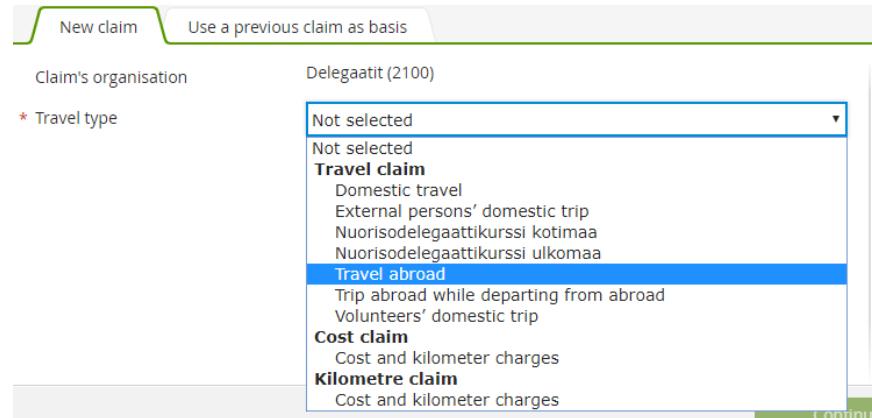

The daily allowance (per diem) for each month is charged through travel claim. The amount of the daily allowance is determined automatically according to the State Travel Regulations. Daily allowances are posted to the delegate project. All mission expenses can also be included to the travel claim as costs. Open advance should be allocated for deduction on travel claim of per diems.

1. Select “New Claim”.

The screenshot shows the Visma M2 software interface. At the top, there is a navigation bar with tabs: 'Visma M2', 'Info page', 'Claims', 'Purchases', 'Advances', 'Attachments', and 'Approval'. Below the navigation bar, there are three sections: 'Company-specific settings', 'User information', and 'Transactions'. In the 'Transactions' section, there are two buttons: 'New plan' and 'New claim'. The 'New claim' button is highlighted with a red box and has a red arrow pointing to it. Below these buttons is a search bar with the placeholder 'Search for a person...'. The 'New claim' button is located in a white box with a blue border.

2. In the Travel type, select “Travel abroad”, when departing from Finland (otherwise select trip abroad while departing from abroad or another relevant option).

The screenshot shows a 'New claim' form. At the top, there are two tabs: 'New claim' (highlighted with a green line) and 'Use a previous claim as basis'. Below the tabs, there are two sections: 'Claim's organisation' (set to 'Delegaatit (2100)') and 'Travel type'. The 'Travel type' section has a dropdown menu with the following options: 'Not selected', 'Travel claim' (with sub-options 'Domestic travel', 'External persons' domestic trip', 'Nuorisodelegaattikurssi kotimaa', and 'Nuorisodelegaattikurssi ulkomaa'), 'Travel abroad' (selected and highlighted with a blue box, with sub-options 'Trip abroad while departing from abroad' and 'Volunteers' domestic trip'), 'Cost claim' (with sub-options 'Cost and kilometer charges'), and 'Kilometre claim' (with sub-options 'Cost and kilometer charges'). At the bottom right of the form is a 'Continue' button.

3. Fill in the travel information in **English**.

Meal information (meals and other information) must also be included in the M2 program. Select "Edit travel meals" to indicate the number of meals received. Select "0, 1 or 2" for your meals (breakfast does not count for meals, two warm meals a day reduces daily allowance). Select "Save".

7. For adding **costs** to your travel claim, please refer to section [2.2. Adding costs](#) on page 4.
8. For adding the relevant **attachments**, please refer to section [2.4 Adding attachments](#) on page 5.
9. For editing the **posting information**, please refer to section [3. Posting information](#) on page 7.
10. **Send for approval.** For instructions, please refer to section [4. Sending for approval](#) on page 8.

## 6. Advance payment

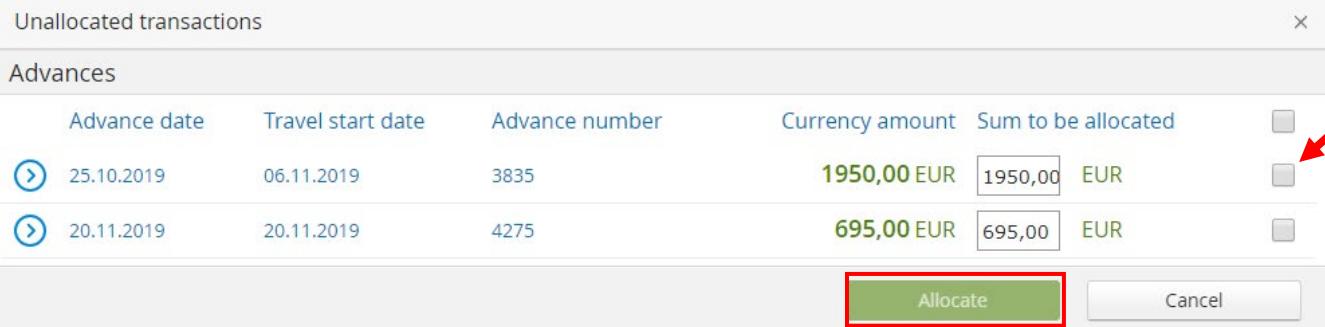

For a specific reason, the delegate may apply for an advance payment from the FRC for mission related expenses. An advance payment for personal travel expenses is requested via email from the HR Officer and an advance for project expenses is requested from the Program Officer. The advance is registered as an open advance in the M2 travel program and is paid to the IBAN bank account of the delegate. The Delegate allocates the open advance against claims in the M2 program. Note that the allocated advance cannot be higher than the total of the claim. The sum is modifiable in open box “Sum to be allocated”.

1. Select “Allocate transactions” from the note that appears to the right end corner, when there are unallocated transactions, such as an open advance or unallocated attachments.

The screenshot shows the M2 travel program interface. At the top, there are buttons for 'Cost claim' and 'Kuluveloitus'. To the right, a message box says 'You have pending unallocated transactions!' with '2 advances'. Below this is a green navigation bar with '1. Costs', '2. Posting', and '3. Confirm'. At the bottom, there are buttons for 'Add', 'Purchases', 'Advances', and 'Allocate transactions' (which is highlighted with a red box).

2. Choose the relevant advances to be allocated by ticking the box and selecting “Allocate” .

The screenshot shows the 'Unallocated transactions' dialog box. It has a header 'Unallocated transactions' with a close button 'X'. Below it is a table with a header 'Advances'. The table has columns: Advance date, Travel start date, Advance number, Currency amount, Sum to be allocated, and an empty checkbox column. Two rows are listed:
 

Advance date	Travel start date	Advance number	Currency amount	Sum to be allocated	
25.10.2019	06.11.2019	3835	1950,00 EUR	1950,00 EUR	<input type="checkbox"/>
20.11.2019	20.11.2019	4275	695,00 EUR	695,00 EUR	<input type="checkbox"/>

 At the bottom are 'Allocate' and 'Cancel' buttons, with 'Allocate' highlighted with a red box. A red arrow points to the checkbox for the second advance entry.
